

CUSTOMER SERVICE BULLETIN

How to lock your double hung windows.

Earthwise™ windows are designed for easy locking in order to gain all the energy conservation possible and to protect your family with firm secure closures.

Step 1. Firmly close the upper sash snugly against the upper frame.

Step 2. Firmly close the lower sash snugly against the lower frame.

Step 3. Align the keeper on the upper sash and the lock on the lower sash.

Step 4. Gently pull the lock handle around to the left.
